

AAB2018

5th International Conference
on Acetic Acid Bacteria
04 – 07 September 2018
TU München, Freising, Germany

Sponsoring and Exhibition at AAB2018

The 5th International Conference on Acetic Acid Bacteria from 04-07 Sept 2018 at the Life Sciences campus of the Technical University of Munich, Germany, follows a successful series of conferences on this topic held in Reggio Emilia, Italy (2005), Nagoya, Japan (2008), Cordoba, Spain (2012) and Taiyuan, P.R. China (2015). The Conference will be held at the Life Sciences campus (Wissenschaftszentrum Weihenstephan, WZW) of the Technical University of Munich (TUM), at the central lecture hall, Maximus-von-Imhof-Forum. 6, D-85354 Freising-Weihenstephan, Germany.

AAB2018 covers all aspects of acetic acid bacteria (AAB) biology and applications, including AAB biodiversity, lifestyle, interaction with matrix, environment, and microbial communities in their natural habitats as well as in the vinegar and other biotechnological processes. The scientific content of the AAB2018 conference includes plenary lectures by international key researchers, as well as short oral and poster presentations organized in four topical sessions: **Ecology and Biodiversity, Genetics and Molecular Biology, Physiology and Metabolism, and Vinegars, Beverages & Food, other Applications.**

This event will offer ample opportunity to meet and discuss with international experts about the latest developments in AAB biology, fermentation technology, R&D projects, future applications, etc.

The organizers would like to encourage interested institutes and companies to participate and become partners as sponsors or presenters in the industrial exhibition of AAB2018. For this, we offer sponsoring packages including the following benefits:
